# CALENDAR VISION

Connecting Strategy to Execution

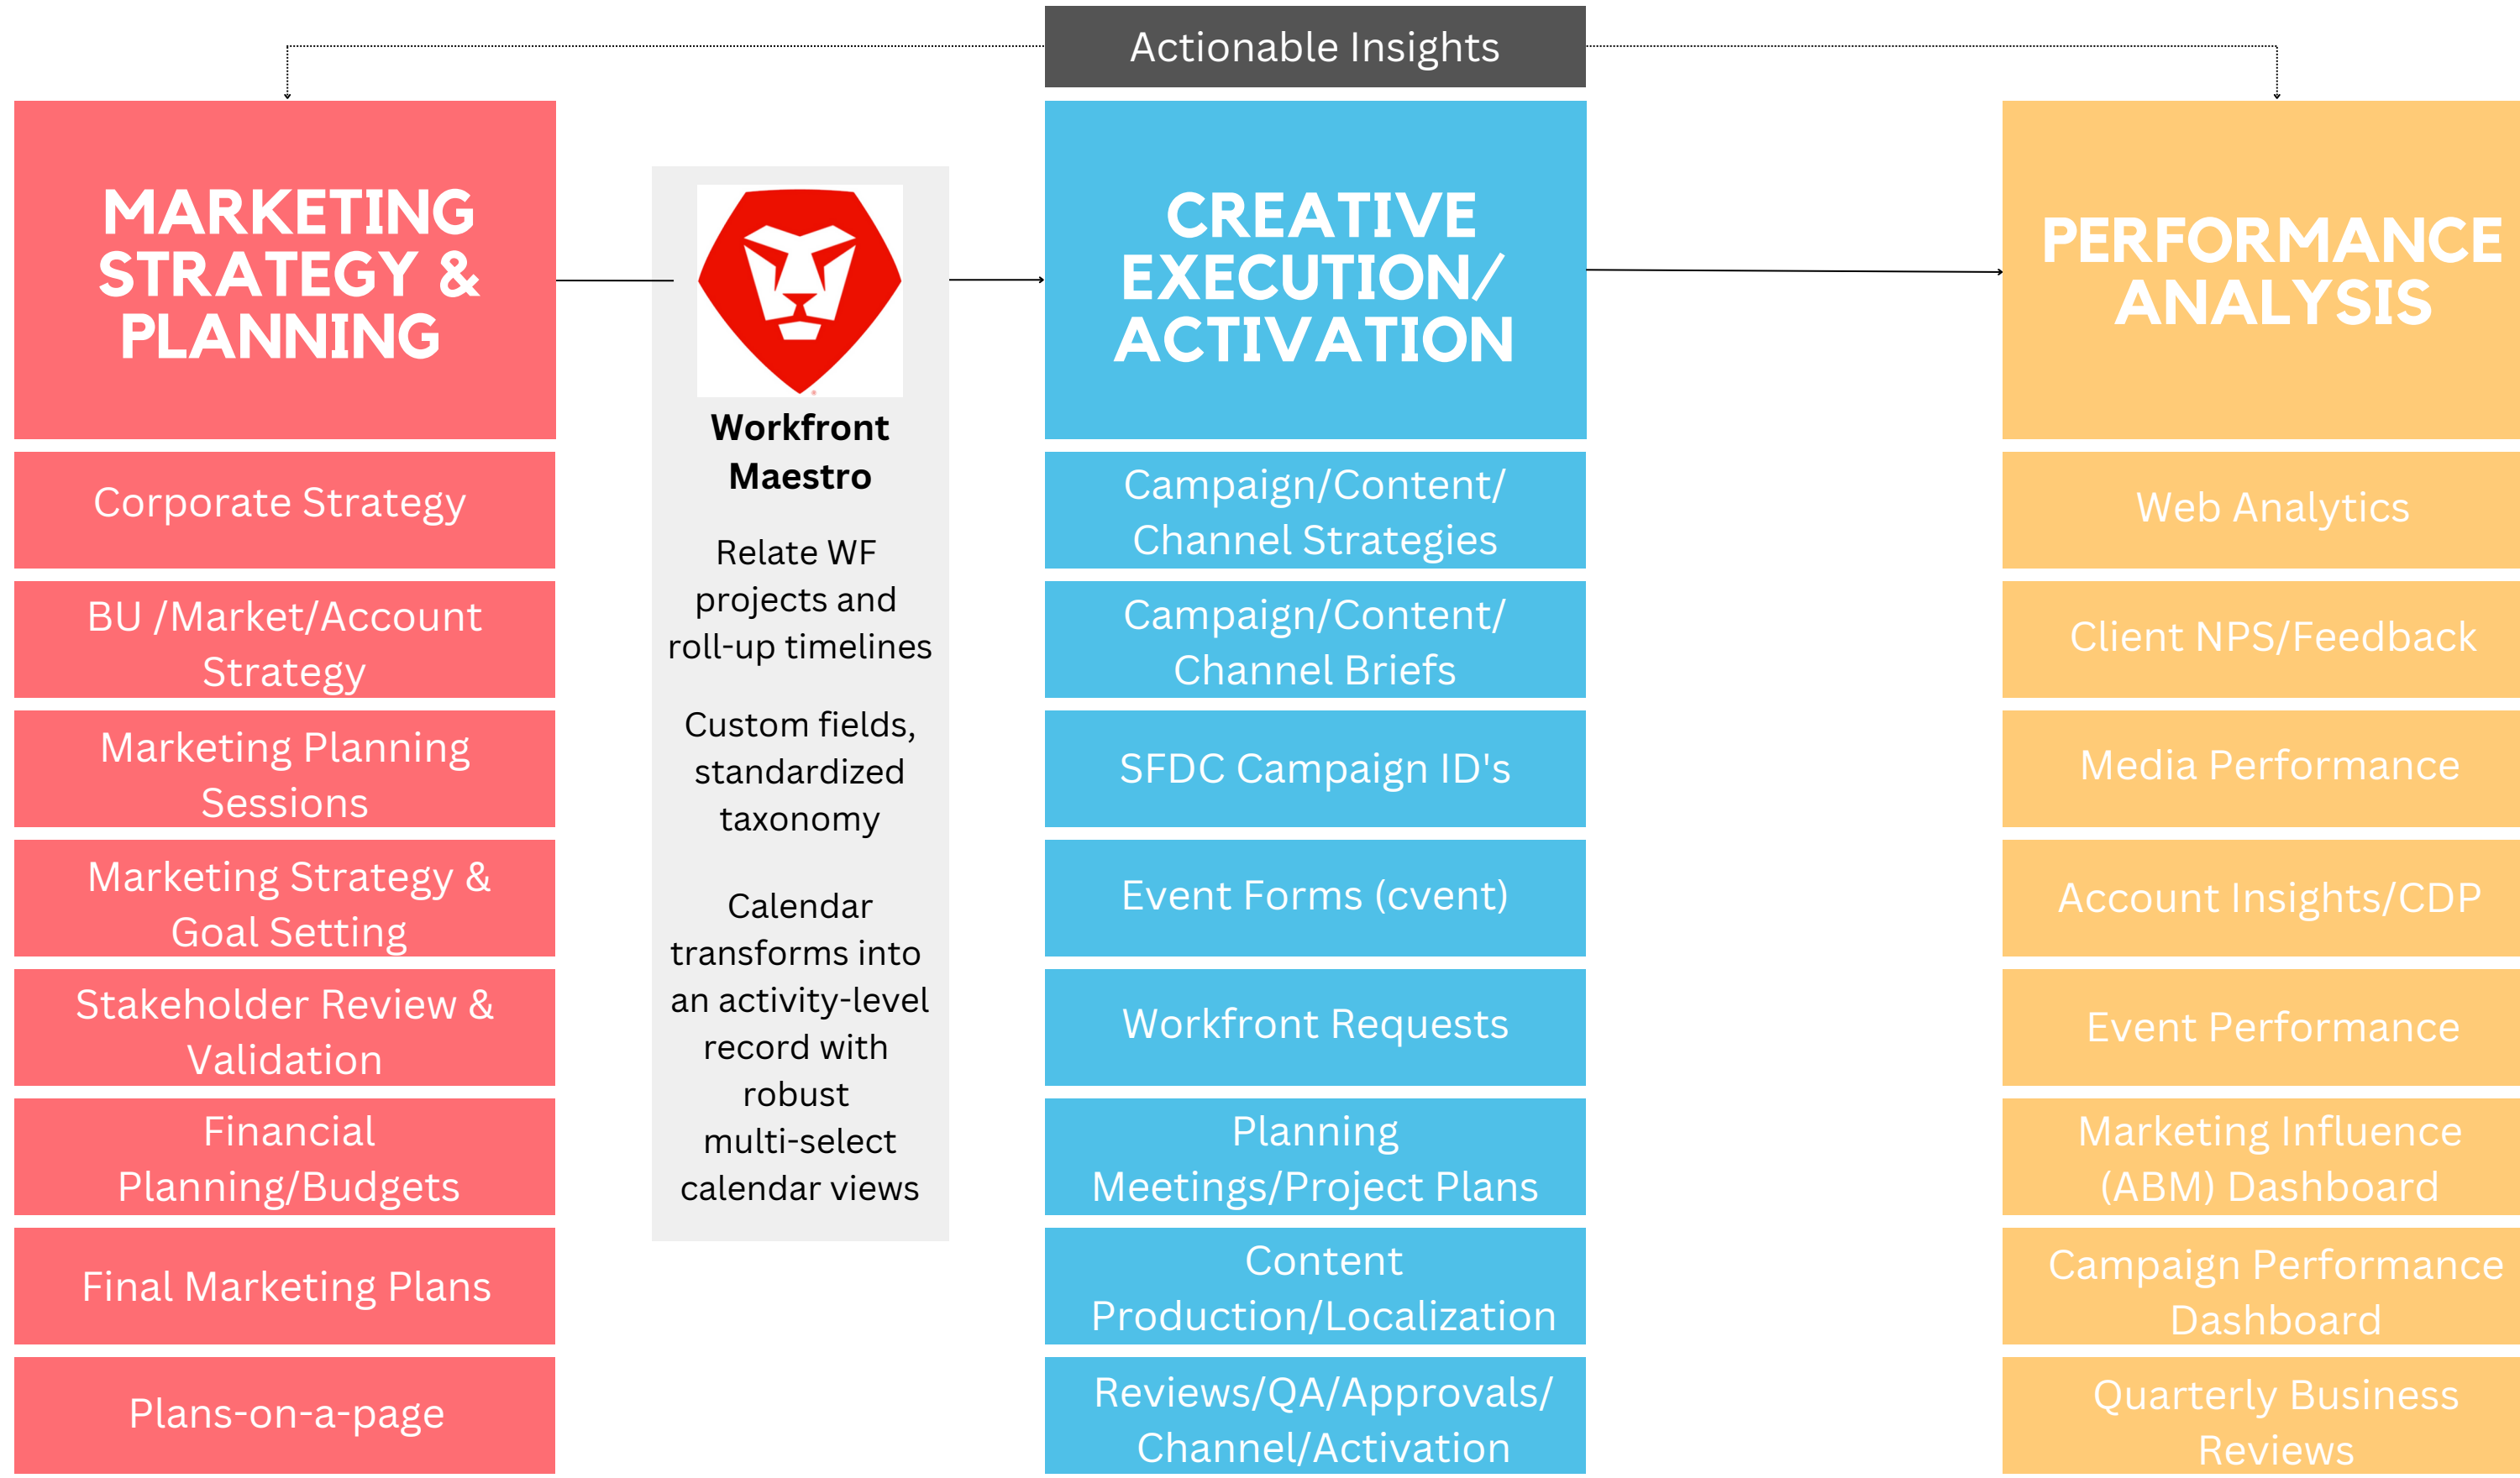

# WHERE DOES THE CALENDAR SIT? (CURRENT STATE)

The Marketing Calendar sits between the marketing strategy & planning phase and execution phase. Only approved activities are added to the calendar.

# OPERATIONALIZING THE CALENDAR (FUTURE VISION)

The Marketing Calendar is implemented in Workfront Maestro, where each activity has its own record that contains Strategy Briefs, Campaign ID's, Links, and MetaData. These records are mapped to a standardized taxonomy. Related Workfront projects roll-up to each activity, minimizing the need for duplicated forms and streamlining timelines for content product and channel activation.

# MARKETING CALENDAR (FUTURE VISION)

## WORKFRONT MAESTRO STREAMLINING STRATEGY & PLANNING TO EXECUTION

The screenshot displays the Adobe Workfront interface for Marketing Campaigns. The top navigation bar includes 'Adobe Workfront', 'PINS', 'Platform Strategy', 'My Tasks Report', 'Boards', 'Areas of Ownership', 'Onboarding Table', 'Initiative Dashboard', and 'Pin current page'. The main workspace is titled 'MARKETING Campaigns' and shows a calendar view for 2023. A campaign card for 'The Frescopa Experience' is highlighted, and a 'Group records by' dialog box is open, suggesting 'Owner' and 'Status' as grouping options. The right-hand panel provides details for 'The Frescopa Experience', including a 'Details page' link, Campaign ID (736470092), Objective, Target Audience, Owner (Ester Howard), Start Date (21 Sep, 2020), and End Date (17 Oct, 2020).

- **Central activity workspace:** roll-up campaign and content briefs, custom fields and ID's to a central location
- **Reduce duplicative work:** eliminate multiple form completions and link related projects, streamlining project timelines and deliverables
- **Reduce redundant calendars:** create and save calendar views configured specifically to you/your team & stakeholders. Filter, sort, group on custom fields
